Welcome

I've always loved the idea that magic doesn't have to begin with elaborate rituals or perfectly planned spells.

It can be found in the changing seasons, flowers growing in the garden, a cup of tea, the moon overhead or simply taking a moment to notice the world around you.

A Curious Kind of Magic grew from that idea, a place to gather together the subjects I've loved learning about over the years and create something that encourages you to explore them in your own way.
